*"The album "Kaleidoscope" by the Swiss singer and composer Manon Pellicorio (Zurich), which had its vinyl and digital release in May 2022, is greatly refreshing. The creation process started in Zurich, expanded to Dublin and Tel Aviv, and finally to Jerusalem, where Pellicorio graduated from the Master of Music in Contemporary Improvisation and Composition. "Kaleidoscope" is a diversely storied, outstanding debut with the contribution of exceedingly talented artists from Switzerland as well as from the international Jazz scene. The compositions are structured clearly, while leaving considerable space for creative improvisation. The contributors all shine in their own way, which creates a clear image of a collective development, exploration and experience of the material. "Kaleidoscope" is a magnificent musical voyage of discovery. "*
